

Tourette Syndrome Association
of Greater Missouri

proudly presents

Understanding Tourette Syndrome & New Behavioral Treatments

Dr. Michael Himle

This **free** presentation for the **general public** is provided through a partnership of the national Tourette Syndrome Association (TSA) and the U.S. Centers for Disease Control and Prevention. The presentation is appropriate for affected families as well as those wishing to learn more about this neurological disorder.

Saturday, April 5, 2014

9:00 a.m. - 12:30 p.m.

Drury Inn & Suites
11980 Olive Blvd.
Creve Coeur, MO 63141

Schedule

9:00 a.m. - Registration & Refreshments
9:30 a.m. - Dr. Himle will present on TS research and the newest behavioral therapies, including Comprehensive Behavioral Intervention for Tics (CBIT). A question and answer period will follow.
11:30 a.m. - How to Get Involved with the Greater Missouri Chapter of TSA /Networking Opportunities

Dr. Michael Himle received a Ph.D. from the University of Wisconsin-Milwaukee in 2007 and completed his clinical internship at Brown University Medical School. He is currently an assistant professor of psychology at the University of Utah.

He is an expert in behavioral and cognitive-behavioral approaches for understanding and treating childhood disorders with emphasis on Tourette's disorder, obsessive-compulsive disorder, and related conditions.

He has published over 35 peer-reviewed articles and book chapters on Tourette Syndrome and related conditions and has received research funding from the Tourette Syndrome Association and the Trichotillomania Learning Center.

His current research focuses on understanding mechanisms of tic suppression, behavioral management of the "tic triad" (Tourette Syndrome, ADHD, OCD), and the use of technology to enhance and disseminate empirically supported treatments.
